ELSEVIER

Bone Vol. 27, No. 6
December 2000:884–889

SUBJECT INDEX
Bone, Volume 27, 2000

Absorptiometry
Bone mineral density in spinal cord injury, 305
Abstracts
International Conference on Progress in Bone and Mineral Research 2000, 733
Acid phosphatase
Tartrate-resistant, structure, function, and regulation of, Review article, 575
Activated protein-1 gene activation
Parathyroid hormone and, 819
Activin
Bone mass and bone metabolism regulation by, 91
Adenosine triphosphate
P2 receptors expression in bone and bone cells and, 503
Adipocyte
Formation, insulin-like growth factor-1/-2 effects on, 785
Adipogenesis
Marrow, osteopenic disorders and, Perspective, 177
Vitamin K_2 effects on, in bone marrow cells, 769
Adolescents
Body fat and bone mass percentage in healthy adolescent females, 203
Growth plate histomorphometric analysis, 495
Alendronate
Bone loss in osteoporosis, prevention in Chinese women, 677
Bone loss prevention and, 639
Postmenopausal osteoporosis prevention/treatment, regimen comparison, 119
Alfacalcidol
Etidronate and, bone mass effects, 647
Alkaline phosphatase
Magnetic and electric field exposure and, 227
Alkaline phosphate
Fibroblast growth factor-2 and, 185
Anabolic treatment
Cancellous bone resorption and, 111
Androgen
Estrogen deficiency induced by aromatase inhibitor, skeletal effects of, rats, 611
Free, index, bone density, estradiol, and, elderly men, 145
Anthropometry
Lower leg, bone-muscle strength indices for, 319
Antiresorptive therapy
Fracture risk in osteoporosis and, Editorial, 1
Antiserum
Vitamin D receptor immunoreactivity in bone cells and, 383
Apoptosis
Inorganic phosphate role in inducing in osteoblasts, 359
Regulation in trabecular bone by parathyroid hormone, 209
Tetracycline-induced, in osteoclasts, 75
Architecture
Trabecular bone, volume fraction-dependent bias and, 715
Aromatase inhibitor
Estrogen deficiency induced bu, skeletal effects of, rats, 611
Athletes
Running, adaptive bone modeling of tarsal bones in racing greyhounds, 257
Tennis players, exercise-induced bone gain and bone density, 351

Baker's disease
Case report at autopsy, 865
Biomechanics
Lower leg, bone-muscle strength indices for, 319
Bisphosphonates
Clodronate, food intake timing effects on bioavailability of, 293
Body composition
Body fat and bone mass percentage in healthy adolescent females, 203
Body fat
Bone mass and, percentage in healthy adolescent females, 203
Bone
Collagen fibrils, nutritional factors influence on, 635
Fibrillin expression in, 61
11β-hydroxysteroid dehydrogenase expression and functional consequences in, 375
Interactions with muscle, Perspective, 339
Small leucine-rich proteoglycans and, 265
Bone cells
Mechanical strain and, estrogen receptor involvement, 233
Bone density
Estradiol, free androgen index, and, elderly men, 145
Exercise-induced bone gain and, tennis players, 351
Loss, risedronate or alendronate role in prevention of, 639
Bone development
Dermo-1 attributes in, 591
Bone formation
Fibroblast growth factor effects in tibial diaphysis and, 197
Pentoxifylline and rolipram effects on bone mass and, 811
Peripubertal, spontaneous fracture and, 619
Response to parathyroid hormone analogs, comparison study, 471
Bone fragility
Bone turnover suppression and, 13
Bone growth
Longitudinal, spaceflight and simulated weightlessness effects on, 535
Structural and cellular changes during, children, 487
Bone loss
Orchidectomy-induced, erect bipedal stance exercise role in preventing, in lumbar spine, 667
Rate of, calcimimetic NPS R-568-induced decrease in parathyroid hormone and, 511
Bone marrow
Adipogenesis, osteopenic disorders and, Perspective, 177
Measles virus and canine distemper virus absence in, in Paget's disease, 417
Megakaryocyte production in, estrogen effects on, 397
Osteogenic response of, to basic fibroblast growth factor, maturation effects on, 777
Vitamin K_2 effects on adipogenesis, osteoclastogenesis and ODF/RANK ligand expression in, 769
Bone mass
Activin effects on, 91
Body fat and, percentage in healthy adolescent females, 203
Early exposure to diethylstilbestrol effects on, mouse, 47
Etidronate/alfacalcidol effects on, 647
Exercise and disuse effects on, diabetic rats, 249
Femoral neck, exercise and oral contraceptive use effects on, women, 855
Fragility fractures and, Editorial, 1
Odontomas and, increase in aging osteopetrotic mice, 603
Pentoxifylline and rolipram effects on, 811

Children
Growth plate histomorphometric analysis, 495
Structural and cellular changes during bone growth in, 487
Chondrocytes
P2 receptors expression in, 503
Phosphate transport in endochondrial ossification and, 69
Clodronate
Food intake timing effects on bioavailability of, 293
Collagen, type I
Breakdown product, as predictor of hip fracture risk, elderly women, 283
Decreased bone mineral density and, 219
Small leucine-rich proteoglycans and, 265
Collagen fibrils
Bone, nutritional factors influence on, 635
Compaction
Structural and cellular changes during bone growth in children, 487
Computed tomography, quantitative
Adaptive bone modeling of tarsal bones in racing greyhounds, 257
Peripheral, lower leg, bone-muscle strength indices for, 319
Connexin 43
Magnetic and electric field exposure and, 227
Contraceptives, oral
Femoral neck bone mass/strength effects, women, 855
Cortical bone
Fibroblast growth factor effects in tibial diaphysis, 197
Cortical porosity
In intracapsular hip fracture, 297
Cortisol
11β-hydroxysteroid dehydrogenase expression and functional consequences in bone and, 375
C-telopeptide enzyme-linked immunoassay
For measurement of bone resorption, 529

Dentin
Small leucine-rich proteoglycans and, 265
Deoxypyridinoline
Milk protective function against osteoporosis, 403
Dermo-1
Bone development and, 591
Development
Early estrogen exposure effects on osteoclastogenesis, 47
Diabetes
Exercise and disuse effects on bone remodeling and bone mass, 249
Diaphysis
Tibial, fibroblast growth factor and, 197
Diethylstilbestrol
Early exposure to, bone mass in adulthood and, mouse, 47

Bone Vol. 27, No. 6
December 2000:884–889

1α,25-Dihydroxyvitamin D_3
Bone resorption induced by, plasminogen activator inhibitor I effects, 97
1,25-Dihydroxyvitamin D_3
Osteoclast differentiation in Paget's disease and, 409
Transcriptional control of response genes and, 53
Drug absorption
Clodronate, food intake timing effects on bioavailability of, 293
Dual-energy x-ray absorptiometry
Bone density in hemodialysis patients, 287
Bone mineral content/density analysis, young men, 835
Decreased bone mineral density and, 219

Elderly patients
Bone density, free androgen index, and estradiol in, males, 145
Hip fracture risk, type I collagen breakdown product as predictor of, women, 283
Smoking and bone metabolism in, women, 429
Electron microscopy
Nutritional factors influence on bone collagen fibrils, 635
Epidemiology
Fractures after thyroidectomy, women, 695
Hip fracture risk, WHO criteria for osteopenia and osteoporosis, 585
Hip geometry , bone mineral density, and bone strength, European men and women, 151
Paget's disease, trends in incidence of, 423
Estradiol
Bone density, free androgen index, and, elderly men, 145
Estrogen
Deficiency, aromatase inhibitor-induced, skeletal effects of, rats, 611
Exposure effects on osteoclastogenesis, 47
Megakaryocyte production in bone marrow and, 397
Estrogen receptor
Estrogen-induced osteogenesis and, mouse, 41
Mechanical strain activation of, 233
Etidronate
Alfacalcidol and, bone mass effects, 647
Bone turnover suppression effects on microdamage, 13
Postmenopausal osteoporosis and, comparison with sodium fluoride, 123
Exercise
Bipedal stance, prevention of orchidectomy-induced bone loss in lumbar spine, 667
Bone remodeling and bone mass effects, diabetic rats, 249
Femoral neck bone mass/strength effects, women, 855
Extracellular matrix genes
Expression of, tibial fracture healing and, 551

Femur
Drill-hole injury, bone regeneration and, 81
Fibrillin
In bone and osteoblasts, 61
Fibroblast growth factor
Tibial diaphysis and, 197
Fibroblast growth factor-2
STRO-1 and alkaline phosphate markers in, 185
Fibrogenesis imperfecta ossium
Case report at autopsy, 865
Fitness
Bone mass development and, 847
Fracture healing
Hypercalcemia after marrow ablation and, 103
Fracture risk
Antiresorptive therapy effects, in osteoporosis, Editorial, 1
Osteoporotic, quantitative ultrasound prediction, 139
Fractures
After thyroidectomy, women, 695
Etiology of, Letter, 873
Fragility: *see* Fragility fractures
Nonsteroidal anti-inflammatory drugs and, 563
Spontaneous, peripubertal bone formation and, 619
Fragility fractures
Bone mass and, Editorial, 1

Gap junction
Magnetic and electric field exposure and, 227
Gastrointestinal absorption
Clodronate, food intake timing effects on bioavailability of, 293
GDF-8
Deficiency, femoral morphology and, 343
Gender disparity
Stress fracture in military recruits and, gender differences in susceptibility factors, 437
Genes
Immediate-early, localization to secretory pathway in osteoblasts, 53
Glucocorticoids
11β-hydroxysteroid dehydrogenase expression and functional consequences in bone and, 375
G-protein-coupled-receptor kinase 2
Osteoblast function impairment and, 367
Growth plate
Histomorphometric analysis of, from birth to adolescence, 495
Spaceflight and simulated weightlessness effects on longitudinal bone growth, 535

Haversian canals
Cortical porosity in intracapsular hip fracture and, 297
Hemodialysis
Bone density in, ultrasound and DEXA measurement of, 287
Hip
Geometry of, association with bone mineral density and bone strength, 151
Hip fracture
Intracapsular, increased cortical porosity in, 297
Risk of, WHO criteria for osteopenia and osteoporosis and, 585
Type I collagen as predictor of risk, elderly women, 283
Histomorphometry
Estrogen-induced osteogenesis, estrogen receptor role, 41
Fibroblast growth factor effects in tibial diaphysis, 197
Growth plate analysis, from birth to adolescence, 495
Parathyroid hormone effects on bone turnover, postmenopausal women, 311

Structural and cellular changes during bone growth in children, 487
Trabecular architecture in osteoporosis, vertebral fracture and, 2D histology, 271
Trabecular architecture in osteoporosis, vertebral fracture and, 3D histology, 277
11β-Hydroxysteroid dehydrogenase
Expression and functional consequences in bone, 375
Hypercalcemia
After marrow ablation, bone resorption and, 103
Hyperparathyroidism
Calcaneus density in hemodialysis patients, 287

Image analysis
Three-dimensional, trabecular architecture in osteoporosis, vertebral fracture and, 277
Two-dimensional, trabecular architecture in osteoporosis, vertebral fracture and, 271
Immunoassay
C-telopeptide enzyme-linked, for measurement of bone resorption, 529

Immunocytochemistry
Activin βa mRNA expression on osteoprogenitor cells, bone regeneration and, 81
Immunohistochemistry
Bone morphogenetic protein expression during distraction osteogenesis and, 453
Insulin-like growth factor-1/-2
Proliferation and differentiation of osteoprogenitor and adipocyte formation, 785
Insulin-like growth factor-1
Quantitative trait loci mapping for, 521
Interleukin-6 gene locus
Association with bone mineral density, 169
Interleukin-1 receptor antagonist protein gene polymorphism
Bone mineral density and, postmenopausal women, 559
International Conference on Progress in Bone and Mineral Research 2000, 721
Abstracts from, 733
Ion channels
In osteoclasts, electrophysiological characterization of, in deciduous teeth, 5

Kinase
Mitogen-activated, osteoblast function impairment and, 367

Letters to the Editor, 873
Limb lengthening
Bone morphogenetic protein expression during distraction osteogenesis and, 453
Lower leg
Bone-muscle strength indices for, 319
Lumbar vertebrae
Nandrolone decanoate effects on, 541

Males
Bone density, free androgen index, and estradiol in, elderly, 145
Mechanical strain
Bone cells effects, estrogen receptor involvement, 233
Megakaryocyte
Production in bone marrow, estrogen effects on, 397
Mesenchymal cells
Distraction osteogenesis and, 661
Metatarsal
Bone strain and microcracks at sites of stress fracture in, 827
Second, bone density and geometry contributions to strength of, 709
Microcracks
At stress fracture sites, in metatarsals, 827
Microdamage
Bone turnover suppression and, 13
Milk
Osteoporosis protection role, 403
Mineralization
Bone sialoprotein and, 795
Phosphate transport in endochondrial ossification and, 69
Small leucine-rich proteoglycans and, 265
Minerals
Importance in bone and mineral research, Perspective, 341
